An Unfortunate Report.

The report in an evening paper to the effect that the passengers at the Burlington depot were being prayed upon by wayward women, owing to the ignorance of the officer of that establishment, is unfounded. Officer Kirk, whose duty it is to look after all irregularities of this kind, through effective service has kept matters of this character subdued, and has spared no pains in seeing the depot of this class of people. It is well known that the Burlington depot is provided with good police service, and it is a bad place for tongs and loafers.

The Stomach Disasters.

There, if existent in a natural quantity, and utilized by him, play their part in the functions of digestion and assimilation. But the artificial acid resulting from the inability of the stomach to convert food into its sustenance, is the producer of flatulence and heartburn, which are the most harassing symptoms of dyspepsia. The best remedy is in the stomach. Stomach Bitters. Far more effective is it than carbonate of soda, magnesia, or other alkaline salts. These invariably weaken the stomach, and produce permanent benefit. No man or woman chronically dyspeptic, and consequently nervous, can be in possession of the full measure of vigor allowed by nature. They cannot invigorate and regulate the system, and by so doing protect it from malaria, rheumatism and other serious maladies.

A Passenger Brakenham Killed.

Superintendent Resegio, of the Union Pacific, received a telegram yesterday to the effect that late Sunday night a brakeman named Blake, on the overland passenger train, met his death at Julesburg, Colo., by being crushed between two passenger coaches. The report was to the effect that while making a coupling at the above point Blake's head was caught between the coaches, crushing it to a pulp, and resulting in instant death. The theory is that he was somewhat rusty and was crushed while endeavoring to connect the air chambers to the brakes. Blake is well known in Omaha, and worked on the Union Pacific between Council Bluffs and Grand Island. His home is in Denver, and the remains will be taken to that place.

A HENRY GEORGE CLUB.

Disciples of the Reformer Organize the Omaha Single Tax Club.
A well attended meeting of the disciples of Henry George met at the Gate City hall Sunday afternoon and organized the Omaha Single Tax Club.

Their scheme for the solution of the social problem is to abolish all taxes, including the tariff, except that levied on land values. They lay special stress on the word "values." All taxes levied on personal property are claimed to be unjust.

Under the single tax system the lot on which the New York Life building stands would pay no more tax than a vacant piece of real estate of the same value. There would be no levy whatever on the building, nor on anything in it. "We don't believe it either just or expedient to fine a man for improving the city," is the way they explain this exemption. "Our idea is not to make a lot of new laws, but to abolish a lot of pernicious ones. We have already a law taxing land values. All we propose to do is to abolish the other taxes. There are now officers to collect these taxes. All we intend to do is to reduce the tax on the land tax is much easier to collect. Simple, isn't it?"

Below is their declaration of principles: "We hold that all men have an equal right to their existence and development, and therefore

fore they all have an equal right to the use of the earth upon which their existence and development depends.

As the most practicable method of asserting the equal right of all men to the use of the earth, we advocate the abolition of all taxes upon industry and the products of industry and the taking for public purposes, by taxation upon land values, irrespective of improvements, of the annual rental value of all the various forms of natural opportunities embraced under the general term land.

We hold that to tax labor or its products is to discourage industry.
We hold that to tax land values to their full amount will render it impossible for any man to exist from others a price for the privilege of using those bounties of nature in which all living men have an equal right of use; that it will compel every individual controlling natural opportunities to either utilize them by the employment of labor, or abandon them to others; that it will thus provide opportunities of work for all men, and secure to each the full reward of his labor; and that as a result involuntary poverty will be abolished, and the dread of poverty and vice that spring from poverty, and the dread of poverty will be swept away.

The following officers were elected: Percy Pepon, president; C. F. Beckitt, vice president; John E. Emberton, treasurer.

WHAT PEOPLE TALK ABOUT.

Views and Interviews Caught in Hotel Corridors and Elsewhere.

Mr. W. E. Annin, private secretary to Senator Paddock, returned home yesterday from Washington. He says that the weather down there is lovely, that the prospects are blooming and everything is leaving town, except the politicians. "Don't know as I can tell you anything that is not already known. So far as the federal appointments in Nebraska are concerned, I can only say that the delegation has made a few recommendations, but the president manifests no disposition to be in a hurry about appointing them. The delegation is working very hard to secure one of the assistant attorney generalships for John C. Watson, of Nebraska City, and I believe they will succeed. John Peterson has been agreed upon for internal revenue collector. Brad Slaughter, as you know, has been confirmed as marshal and Patrick Egan goes to Chicago, but beyond these I don't believe anything definite has been done. The selection of a United States attorney seems to be rather indefinite, considering that it would not surprise me if Mr. Pritchett should be permitted to serve out his term. The legal department has not as yet outlined a policy, though the indications are that we will have a much stricter adherence to civil service rules than ever before. Very important appointments have been made as compared with the first month of work of former administrations. The various departments appear to be determined that no man shall be removed before the expiration of his term except for good reasons. A sweep has been made in the railway mail service but that was demanded by the whole country irrespective of party." Mr. Annin says that he gave no particular attention to the Omaha postoffice fight and had very little to say about it.

Omaha was invaded last evening by Bill Nye, J. Whitcomb Riley and Eli Perkins, three of the most notoriously funny men in prose, poetry and stump oratory preparation. Nye and Riley came together, while Perkins floated in by himself. Nye and Riley hotelled at the Millard while Perkins hid himself near the sky light parlor at the Paxton. The first two came to see Omaha's billious population with a double-headed humorous entertainment styled lecture, but Eli's mission is not made known. Mr. Nye said that he had been under the weather for several days, and because of the quietness encountered at Des Moines last Wednesday cancelled four engagements, went to bed there and rested until noon yesterday. "Hut I am all right now," he continued, and will do his best to drive dull care away from Omaha before leaving."
